

B2X™

MID-RANGE PUMPS

The **B2X™ mid-range pump** is powered by a choice of Briggs and Stratton Vanguard or Honda 4-stroke engines. Dedicated to wildland and urban interface operations, it combines both pressure and volume to deliver the best performance of its class with minimal operating costs. Unlike other pumps, the B2X™ uses a low maintenance drive-belt system that provides efficient and dependable performance.

This unit is available in different configurations:

- Portable
- Vehicle-mounted
- Horizontal and vertical drive orientation
- Engine-mount control panel
- Dual control panel
- Fuel tank
- Exhaust primer

APPLICATIONS

- Interface wildfire operations.
- Vehicle-mounted applications.
- Brush trucks.
- Initial attack units.
- Slip-on units.
- Structure protection.
- Water transfer.
- Boat fire pump.
- Simultaneous attack lines.

FEATURES AND BENEFITS

- Quick-release clamp and detachable pump end for ease of maintenance and minimal equipment downtime.
- Unique blister resistant mechanical rotary seal to prolong pump end longevity.
- Sealed bearing to eliminate pump end greasing in the field.
- Drive assembly for reliable, low maintenance performance.
- Aluminum alloy pump components and anodized parts for lighter weight and great resistance to corrosion.
- FastWire included on all vehicle-mounted units.
- Optional single control panel and dual control panel with remote throttle control.
- EPA certified.
