BB-4-D902

VEHICLE MOUNT

HIGH PRESSURE 4-STAGE FIRE PUMP

The WATERAX BB-4-D902 pump pairs a reliable high performance 4-stage pump end with a powerful Kubota D902-E4B 3-Cylinder Fuel Injected Liquid Cooled 25 HP Diesel Engine to achieve pressures of up to 395 PSI (27.2 bar) and flow rates reaching 106 GPM (401 L/Min). Strong enough to operate as a source pump for tandem and parallel pumping, it is also optimal for direct attack firefighting, remote watering, sprinkler systems, and is a popular choice for slip-on units.

The **WATERAX** quick release clamp provided on the **BB-4**® pump lets you replace a damaged pump end in the field with minimal equipment downtime. The 4-stage pump end on the **BB-4**® is identical to the pump end on the **MARK-3**® unit, which greatly reduces your spare parts inventory and improves your ability to respond to unforeseen equipment damage.

Applications

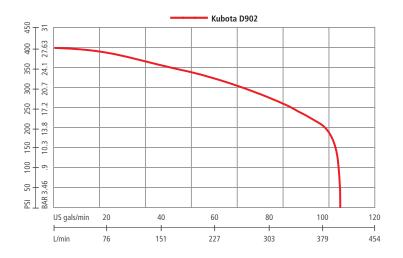

- Slip-on units
- Attack line firefighting
- Long hose lay for remote watering during firefighting operations
- High elevation firefighting in mountainous areas
- Accuracy in flow trajectory when structure firefighting
- Tandem pumping over long distances
- Parallel pumping for higher volumes

Features and Benefits

- Quick release clamp and swappable pump ends for minimal equipment downtime and inventory
- Sealed bearing to eliminate pump end greasing in the field
- Belt drive system for reliable, low maintenance performance
- Aluminium alloy pump components and anodized parts for lighter weight and greater resistance to corrosion
- Comprehensive user and service manuals
- EPA Certified

Controls Specifications

PMSCP-Diesel Push Button On/Off Switch (lit when on), Low Pressure Protection Switch

(lit when on), Push Button Engine Start, Glow Plug Timer, Low Oil Pressure, Warning Light, High Water Temperature Warning Light, Vernier Throttle, Pump Discharge Pressure Gage and mounting for optional electric primer momentary

control toggle switch (comes in electric primer kit).

G1 PANEL Rotary OFF/RUN/Start Switch; LED Indicators for glow plug preheat, alternator

charge failure, low oil pressure, and high engine temperature. Tachometer, Hourmeter, and low oil pressure and high engine temperature shut down.

DUAL CONTROL PANELSTwo individual panels each having a rotary OFF/RUN/Start Switch; LED Indicators

for glow plug preheat, alternator charge failure, low oil pressure, and high engine temperature. Tachometer, Hourmeter, and low oil pressure and high engine

temperature shut down.

NOTE: All panels come with FastWire Connections for ease in installation and maintenance.

A 3 foot extension is also available.
