

The **B2X pump** is a mid-range fire pump dedicated to wildland and urban interface operations. The various models are powered by choice of Briggs and Stratton Vanguard or Honda 4-stroke engines. Combining both pressure and volume, the **B2X** delivers the best performance of its class with minimal operating costs. Unlike other pumps, the **B2X** uses a low maintenance drive-belt system that provides efficient and dependable performance.

**This unit is available in different configurations:**
