

Item no: 100053

The **MINI-STRIKER® lightweight high-pressure pump** is well suited for initial attack operations and is a very popular choice for entry-level skid applications. The MINI-STRIKER® combines a single-stage pump end powered by a reliable Honda 4-stroke 2.5 HP engine to generate class leading performance.

This mini powerhouse performs well when used by itself or in tandem with other pumps. It is particularly suited to some of the latest fire control techniques where small, lightweight equipment is a requirement.

***Available in portable and vehicle-mounted configurations.**

Flow rate at specified pressure

Maximum pressure: **85 PSI** (5.9 Bar)
 Free flow: **80 US gals/min** (303 L/min)
 Maximum head: **196'** (60 m)
 Weight: **20 lbs** (9 kg)

Performance

Flow		Pressure		
US GPM	L/min	@	PSI	Bar
68	257	@	25	1.7
42	159	@	50	3.4
12	45	@	75	5.2

MINI-STRIKER®

LIGHTWEIGHT HIGH-PRESSURE FIRE PUMP

APPLICATIONS

- Initial attack firefighting.
- Structure protection.
- Sprinkler operations.
- Tandem pumping over long distances.
- Entry-level slip-on units.

FEATURES AND BENEFITS

- Lightweight aluminum alloy pump components.
- Portable and compact.
- Reliable 4-stroke Honda engine.
- Robust carrying handle.
- Integrated fuel tank.
- Emissions compliant; engine is CARB and EPA certified.
