

# VERSAX®

## MULTIPURPOSE PUMP

The **VERSAX®** is a versatile, rugged and economical twin-impeller self-priming pump powered by a Honda or a Briggs & Stratton Vanguard . It provides superior water-transfer performance as well as the ability to combat fire from greater distances and points of elevation. The **VERSAX®** is a multipurpose fire pump that can also be used for other applications such as tank filling, water transfers and as ATV slip-on units.

## APPLICATIONS

- Firefighting
- Tank filling
- High head general water transfer
- Boom spraying
- Irrigation
- ATV slip-ons

## FEATURES

- Twin-impeller design provides additional pressure for longer and higher pumping applications
- Pump casing and diffusers manufactured from quality corrosion-resistant grade aluminum for long life
- Removable discharge and suction ports
- Provide quick access inside the pump volute
- Cost-effective ports replacement in case of damage (e.g. damaged threads)
- 3-way discharge port for easy installation
- Self-priming for more versatile installation options
- Easy access to drain port
- Low oil protection
- Fastwire™ included on all vehicle-mounted units
- EPA certified
